

Fumbisi & Accra

Hello dear friends of Fumbisi and Accra in Ghana, Africa

Volume 1, Issue 2
March 29, 2022

I have started a school for children on the street. Actually, in two different areas. During the week in the house, we live in. Saturday in my mother's home until we can start building a place for children. Planning has started. Pastor Tom and members of Christian Life Centre (Ft. Lauderdale) have donated to a start for the building of the shelter on the Land. God is sooo good.

I have not yet found a job because no one can pay 2000 Cedi which is what teachers earn (about 330 C\$). So, as I am still searching, the Lord is keeping me busy with teaching children for free. We pray together and learn about Jesus and through learning of the Word they learn

English which is what they need for school, better handwriting, maths, and arts. All with the main subject the Bible.

What was so touching, I did not expect them to turn up. Because on Saturday they either have to work or support their smaller siblings. But they came!!!! washed and cleaned up wearing their best clothes. So many others wanted to join, older and younger, but I had to make a stop for grades 1, 2 and 3 because I don't have the space and the help from others, but we are waiting for Jesus to bring a solution. How precious they are.

I believe they will grow and change their environment with Christ. Hallelujah

Great Beginnings

Two of the children have the family name Nkrumah. This was the name of the first president of Ghana after the colonial era of the British. He was trained in a church university in the USA, and he did great things for the people. Since

this time every president who came after him steals for themselves making the country poorer and poorer. May these kids and those in Fumbisi grow to be God's workmanship made to do good on earth.
